## Quote of the Month:

"The child who concentrates is immensely happy."

-Dr. Maria Montessori

## *Welcome to Silverline Montessori Cypress Towne Lake*

February was a month of love, sweets and dance moves. We had a wonderful month. For Valentine's Day on February 14<sup>th</sup>, our Primary B students showed off their Valentine attire by strutting their stuff during a fashion show. The students then celebrated with a dance and classroom parties in the afternoon. For President's Day, it was a non-academic day, but the students learned all about Presidents, their job, and what they would do if they were President. February was Children's Dental Health Month. We had Smiles Gone Wild come do a presentation for our children and they learned all about the healthy ways to take care of their teeth. We finished out the month of February with a Nutrition theme. The teachers in each classroom were able to pick their own food project to do. The students loved it!

March starts the beginning of Spring on the 20<sup>th</sup>. We will be hosting our Annual Spring Picnic where the parents will be able to join their child for lunch outside on the playground. Daylight savings is also this month, so don't forget to spring forward those clocks on March 10<sup>th</sup>.

Spring break starts on Monday, March 11<sup>th</sup>. This will be a non-academic week. Meaning, no uniforms and school day students do not attend. There is going to be plenty of fun during that time and we can't wait!

### *Featured Staff Member- Ms. Amanda*

Ms. Amanda is one of our esteemed Infant teachers. She has over 15 years of experience working with that age group. She is always a team player that will lend a hand without even being asked. We are so excited that she joined our team here at Silverline. Thank you, Ms. Amanda, for all that you do!

### *Montessori Education*

Montessori is designed to help all children reach their fullest potential at their own unique pace. A classroom whose children have varying abilities is a community in which everyone learns from one another and everyone contributes. Moreover, multiage grouping allows each child to find his or her own pace without feeling "ahead" or "behind" in relation to peers. Research studies show that Montessori children are well prepared for later life academically, socially, and emotionally. In addition to scoring well on standardized tests, Montessori children are ranked above average on such criteria as following directions, turning in work on time, listening attentively, using basic skills, showing responsibility, asking provocative questions, showing enthusiasm for learning, and adapting to new situations.
